SKILLS

1. Python | Django | matplotlib | NumPy
2. C++ | basic c# | basic JavaScript | basic react js
3. HTML | CSS| Bootstrap
4. MySQL | PostgreSQL
5. Git/GitHub

PROJECTS

FEFI
(https://github.com/felipefiasco666/FEFI-.git)

- A social media app that allows users to interact. Users can share images, video and the best part audio files. It's a useful feature for artists, producers or music enthusiasts who might want to share their favorite jam with friends. Users can follow/unfollow each other like/unlike each other's posts. It has a search option where users on the app can search for profiles.

python | Django | html | CSS | PostgreSQL

FEFI BLOG
(https://github.com/felipefiasco666/fefi-blog.git)

- A personal blog app where a user can still share art or other images, a user can make thousands of topics, they can also make it a personal journal.

python | Django | html | CSS

PORTFOLIO WEBSITE

- A personal portfolio website that gives a more detailed view of my projects and more about me.

html | CSS

Data visualization automation app
(https://github.com/felipefiasco666/data-visualisation-.git)

- A data visualization app that reads statistical data from csv files and translates it into beautifully illustrated graphs making it easy to read and understand.

Python | matplotlib | NumPy

DEAD ROSES/CRAZY PARADISE AUDIO AND VISUALISERS
(https://youtu.be/A18xi5WS96k?si=kW3u6ShpAhkdedcF)

- My music production projects include 4 songs produced by me, including the video editing for the visualizers.

fabfilter | waves | celemony melodyne | ozone | Valhalla

EXPERIENCE

Independent Freelance
web developer *May 2023-current*

- I am involved in the software development life cycle checking requirements needed, gathering , analysis and design.
- I design web applications using Django and python.
- I am responsible for deploying the application on git and GitHub.

- I am responsible for troubleshooting and debugging the application in the development phase.
